Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)				
Office Action Summary	09/771,362	HAGER ET AL.				
omoc Action Cammary	Examiner	Art Unit				
The MAILING DATE of this communication	Ruth C. Rodriguez	3677				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status						
1) Responsive to communication(s) filed on	25 January 2001					
2a)☐ This action is FINAL . 2b)⊠	This action is non-final.					
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213. Disposition of Claims						
4)⊠ Claim(s) <u>1-18</u> is/are pending in the applic	ation.					
4a) Of the above claim(s) is/are withdrawn from consideration.						
5) Claim(s) is/are allowed.						
6)☐ Claim(s) is/are rejected.						
7) Claim(s) is/are objected to.						
8)⊠ Claim(s) <u>1-18</u> are subject to restriction and/or election requirement.						
Application Papers						
9) The specification is objected to by the Examiner.						
10) ☐ The drawing(s) filed on is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.						
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).						
11)☐ The proposed drawing correction filed on is: a)☐ approved b)☐ disapproved by the Examiner.						
If approved, corrected drawings are required in reply to this Office action.						
12)☐ The oath or declaration is objected to by the Examiner.						
Priority under 35 U.S.C. §§ 119 and 120						
13)☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).						
a) ☐ All b) ☐ Some * c) ☐ None of:						
1. Certified copies of the priority documents have been received.						
2. Certified copies of the priority documents have been received in Application No						
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).						
a) ☐ The translation of the foreign language provisional application has been received. 15)☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Art Unit: 3677

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to shopping tool having electronic display tags, classified in class 705, subclass 14.
- II. Claims 5-8, drawn to shopping tool and method having a software interlock preventing display or retrieval of certain information if a time period exceed a set threshold, classified in class 705, subclass 26.
- III. Claims 9-13, drawn to shopping tool and method of providing total cost information for a list of products, classified in class 705, subclass 26.
- IV. Claims 14 and 15, drawn to shopping tool for indicating special pricing for items specified in list, classified in class 705, subclass 26.
- V. Claim16-18, drawn to shopping tool identifying the area in a store where several desired products are located based on a list provided by the user, classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, have different functions and effects. Invention I provides electronic display tags presenting special advertisement for products without any inquiry by the user and does not require any time threshold or list provided by the applicant. Invention II assure the pricing

Art Unit: 3677

on the list.

information is accurate by providing a set threshold for communication between the website and a computer system so that the pricing information can not be retrieved when the threshold is exceeded and does not have electronic display tags or requires a list to be provided by the applicant. Invention III provides total cost information for a list of products from several stores allowing price comparison between stores without having electronic display tags or a time threshold and does not look for special pricing information for the items provided on the list or provides the location of the items in the store. Invention IV looks for special pricing information of items specified in a list of at least one store or a group of stores without having electronic display tags or a time threshold and does not provide total cost information allowing price comparison or provides the location of the items in the store. Invention V identifying the area in a store where several desired products are located based on a list provided by the user without having electronic display tags or a time threshold and does not provide total cost information allowing price comparison or does not look for special pricing information for the items provided

Page 3

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Michael J. Nieberding on 05 June 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR) 1.143).

Art Unit: 3677

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ruth C Rodriguez whose telephone number is (703) 308-1881. The examiner can normally be reached on M-F 07:15 - 15:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on (703) 306-4115.

Submissions of your responses by facsimile transmission are encouraged. Technology center 3600's facsimile number for before final communications is (703) 872-9326. Technology center 3600's facsimile number for after final communications is (703) 872-9327. Recognizing the fact that reducing cycle time in the processing and examination of patent applications will effectively increase the patent's term, it is to your benefit to submit responses by facsimile transmission whenever permissible. Such submission will place the response directly in our examining group's hands and will eliminate Post Office processing and delivery time as well as PTO's mailroom processing and delivery time. For a complete list of correspondence **not** permitted by facsimile transmission, see MPEP § 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a deposit account, can be submitted by facsimile transmission. Responses requiring a fee that the

Art Unit: 3677

applicant is paying by check should not be submitted by facsimile transmission separately from

Page 5

the check.

Responses submitted by facsimile transmission should include a Certificate of

Transmission (MPEP § 512). The following is an example of the format the certification might

take:

I hereby certify that this correspondence is being facsimile transmitted to

the Patent and Trademark Office (Fax No. (703) 872-9326) on ___(Date) .

(Typed or printed name of person signing this certificate)

(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the

original should be retained as evidence of authenticity (37 CFR 1.4 and MPEP § 502.02). Please

do not separately mail the original or another copy unless required by the Patent and Trademark

Office. Submission of the original response or a follow-up copy of the response has been

transmitted by facsimile will cause further unnecessary delays in the processing of your

application, duplicate responses where fees are charged to a deposit account may result in those

fees being charged twice.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is (703) 308-1113.
